Dear Class of 1986,

Welcome to the Alton High School 20-year class reunion. We have now been out of high school longer than it took us to get there, and have now been an adult longer than we were a child. It really seemed like we had done and seen it all back in 1986, but in retrospect, we were quite naïve. The world has changed in ways we could never have comprehended. Our lives have also changed and evolved as we have grown older and the world has changed around us.

While the days of high school are mostly a distant memory now, crowded by the immediacy of our adult lives, it is important to look back as we do at this reunion and remember those innocent and less complicated days of our lives. The days when a math quiz or a big game were the sources of major stress in our lives, instead of the job, family, relationship or other trappings of adulthood that have come to bare on us.

While we have all certainly seen good times and bad times in the last 20 years; the birth of children, finding love in our lives, divorce, losing a loved one, it was the foundation that was laid in high school that has carried us through. Those early formative years of our adulthood guide our thoughts and actions today.

Reliving and revisiting those times is fun and energizing, helping to recharge our spirits and helping us remember how we became who we are today. Every five years this great committee of classmates puts together a weekend for us to again join with one another and reconnect. We have the chance to see each other differently as adults and to remember all the good times and bad times we shared back then. We have the chance to go back in time to those special days of high school for just one weekend, before we head back to the reality of our current lives.

Life goes on, people change, and that is why reunions mean so much. On behalf of the planning committee, thanks for coming this year and have a great weekend. We look forward to seeing and re-connecting with all of you!

Sincerely,

Rebecca (Snyders) Darr

SUBJECT: Twenty Years – and Counting

It's official – we've now been out of high school longer than it took us to get there and graduate. Has twenty years gone by as fast for you as it has for me? How did we get to this far away from high school? You know you're getting old when the oldies station now features tunes from the 80's. Have we turned into our parents yet? I'm looking forward to seeing each and every one of you at the reunion to find out.

What for many of us was the culmination of a journey that began in elementary school, we can in large part thank each other for influencing the people we have become. We can also thank our alma mater, Alton High School, for the opportunities it provided us to discover ourselves and begin the transition to the rest of our lives. High school taught us a lot about life, ourselves, each other, and about the wide world around us – it'll be interesting to find out what we now think about our short four years together at AHS. Without the support and encouragement of our friends, families and teachers through our "formative" years, I am sure we could all say how different our lives would be.

I am looking forward to hearing about how you've spent the last twenty years, and what you hope for the next twenty years. As this is as much a time for reflection, I encourage you to celebrate our classmates who have passed before us, to be mindful of those not as fortunate, and to say a prayer of thanks for the goodness in our lives and the goodness to come. Bring pictures of your littlest to your biggest and everyone in between.

Like the Comet Halley, which brightens our skies every 76 years (the last time in 1986, coincidentally), it is now time for our trajectories to circle back, for us to touch base with our youthful center, and propel again into the future. I look forward to the celebration of our collective success!

And last but not least, a very special thanks to the Reunion Committee and all they do to make our reunions the happening events that they are, thankfully more frequently than the comet. Now get out those skinny ties, acid washed jeans, and head bands – the 80's are back!

Yours truly,

Michael Aoki-Kramer

The following committee members would like to thank everyone for coming and we hope you have a great time!!

80's Music Questions

What song & artist did these lyrics come from?

“Now look at them yo-yo’s, that’s the way you do it.”

“If you’re gonna do it, do it right, do it with me.”

“I’ve seen the future. I can’t afford it.”

“I touch you once, I touch you twice. I won’t let go at any price.”

“In the middle of makin’ love, we notice the time.”

“Six o’clock already I was just in the middle of a dream.”

“I just wanna use your love tonight.”

“You can look at the menu, but you just can’t eat.”

“Oklahoma was never like this.”

“I was only trying to be nice.”

“What is it good for? Absolutly nothin’!”

“These tears I cry aren’t tears of pain.”

“Till now, I always got by on my own, I never really cared until I met you.”

“I was wrong, now I find just one thing makes me forget.”

“I never took the smile away from anybody’s face.”

“Many miles away there’s a shadow on the door of a cottage on the shore.”

“I could never love again the way I love you.”

Most memorable moment at Alton High: Learning the formula $rt=d$
Craziest stunt in high school: During my senior year I expressed my dissatisfaction with the unprofessional manner in which the Commercial Art teacher would drink booze in his office during the class period. Unfortunately, at the time, I did not have enough experience to know that confronting an authority figure in front of others when they are drinking does not produce positive results. The whole thing did not go over the way I had it worked out in my head.
My classmates would be surprised to know: Many people do not know that I graduated college in 1991 from Southern Illinois University at Carbondale. I moved directly to from Southern Illinois to San Antonio, TX. Texas is quite different from where I grew up but I loved the state. There are many great cities within its borders. While there, I learned how to manage a photo lab and portrait studio. Running around with a gang of beatnik mushroom hunters and local cable access geeks was a priority then. After 5 years away from the Midwest I realized I missed my family so I moved back to the Alton area. I worked at Arttech Photo in St. Louis' Central West End and lived in the Soulard neighborhood until April Fools day, 1999. Like everybody else who hangs out in the mansions off Euclid and Forest Park, I memorized the first three "Vampire Chronicles" by famed New Orleans author, Anne Rice. I also memorized Bram Stoker's "Dracula" as I had some extra time on my hands working in the darkroom. I then moved to Chicago and became a fund raiser for The Rotary Foundation. I currently reside in Chicago's Lincoln Park neighborhood with my fiancé, Patrick Houdek. While I do not have any children, I have been keeping myself busy by working full time, getting my MBA part time at Loyola University Chicago, planning my November 4, 2006 wedding and deciding if I should change my last name to Houdek or keep the one that rhymes with viola. I do make it back home to Godfrey about 4 times a year to visit my folks and friends.
Message to the class: End with a bang, not with a whimper! Does everybody remember that one? Oh yeah, and I heart back-fat.
